About HopingMinds.

HopingMinds, an **NSDC** accredited partner, is an innovative EdTech venture transforming India's educational system into an outcome-oriented system by helping students identify, train for and get placed in high growth career paths.

Established by driven young entrepreneurs with prestigious IIT and IIM backgrounds along with combined sectoral experience of 30 years', HopingMinds delivers highly engaging and **gamified programs** as **live interactive sessions** by leveraging a load of **digital initiatives**.

With **200+** industry partners across India and abroad, our team has trained and placed

Ajitesh Abhishek,
Product Manager,
Google

I have observed firsthand the transformation HopingMinds' programs bring in their students. Their hands-on approach, personalised focus on each student and curriculum alignment with market trends are key strengths. I recommend their programs as a pathway to a better future.

Subhash Kumar
Chairman,
ONGC

I have over my long career seen a number of programs that are designed and delivered to help the younger generation. I found a difference in Hoping Minds as they have also concentrated on building the capabilities of students to get into and grow in professional life which is a very welcome addition.

Nitin Arora,
Deputy Director,
CT Group of Institutions

Hoping Minds, our partner for three years, recruited 14 students last year with packages from 15 Lakhs Rupees. This year, five more students secured positions with enticing packages. The company initiates training from the 6th semester to enhance students' skills. We aim to maintain this beneficial partnership in the future.

Navdeepak Sandhu
Deputy Director,
IKG Punjab Technical University

It's not often that I come across an edtech firm as transformative as Hoping Minds. As the director of PTU, I've had the pleasure of collaborating with them to enhance our educational initiatives, and the results have been nothing short of remarkable. HM's commitment to excellence and their passion for advancing the field of education are truly commendable.
